**Satellite Installation:** Satellite dishes MAY NOT be installed on any roofs, wooden surfaces, sides of any buldgs that are visable from within or without the complex. Wiring must not be visible on the exterior of the buldings. Specific guidelines for satellite dish installation are available from the management company or online @ <http://www.lvmhoa.org> . Failure to follow the guidelines will result in the removal of your satellite dish. You will be billed for the cost of any repairs to common area surfaces or buildings, or damage to private property as a result of your satellite dish installation.
